EDUCATION

KING'S COLLEGE LONDON   **London, UK**
Master of Science in Economics and Finance   **2022 – 2023**
- Dissertation: Decoding Disparities: The Interplay of Monetary Policy and Income Inequality in the Middle East
  - Grade: Distinction (First)
- Overall Grade: Merit (Upper Second 2:1)

SORBONNE UNIVERSITY   **Abu Dhabi, UAE**
Bachelor in Economics and Management   **2018 – 2022**
- Graduated with Honors

RESEARCH EXPERIENCE

KING'S COLLEGE LONDON – Graduate Research   **London, UK**
Decoding Disparities: The Interplay of Monetary Policy and Income Inequality in the Middle East   2023
- Utilized PVAR GMM and LSDV estimations on 296 observations across 11 Middle Eastern countries, driving deeper regional economic insights
- Employed OIRF shock graphs to decipher the effects of M1 money supply and policy rate on income disparity, offering critical insights to potential policy ramifications
- Implemented the median permutation technique, ensuring robust and stationary variables, leading to more reliable and accurate modeling outcomes
- Determined a significant positive linkage between the M1 money supply and income inequality, offering potential avenues for policy considerations and financial strategies

SORBONNE UNIVERSITY – Undergraduate Research   **Abu Dhabi, UAE**
An Empirical Analysis of Okun's Law in the G7   2022
- Constructed an OLS model integrating unemployment and GDP, providing key insights into economic dynamics
- Delved into potential monetary policies, illuminating the cone of possibilities for implications on the financial markets, facilitating informed decision-making
- Leveraged the Hodrick-Prescott filter in R studio, effectively isolating cyclical unemployment and GDP, ensuring more refined and accurate economic analysis
- Evaluated Okun's law in both difference and gap forms for individual countries, enhancing our understanding of country-specific economic behaviors and relationships
